**Are you curious about kombucha? Have you tasted it or tried to make your own?**

Fermented beverages, especially kombucha, have become very popular in North America over the last few years. Nowadays, kombucha is easily found in supermarkets, healthy stores and restaurants. However, it is still quite expensive, which make it less accessible. This is one reason that **People's Potato** is offering this free workshop to those who would like to learn how to prepare kombucha at home and enjoy all the benefits of drinking it in regular basis.
